OBJECTIVE OF WORKSHOP

Electronic waste, (E-Waste) is electrical and electronic equipment like Radios, Mobiles, Keyboards discarded due to inoperable, end of life or the obsolescence devices. The e-waste creates hazardous effects not only on human but also environment due to its composition of toxic metals and thus needs to be handled carefully. To overcome the diverse and complex problem of hazardous e-waste management, a multi - disciplinary approach is required to implement the mechanism for collection, assorting, reusing, repairing, re - manufacturing to reduce emissions and save energy.

The Workshop aims to identify and discuss the major challenges and needs associated with management and handling of e-waste among the various stakeholders from different parts of society and motivation to entrepreneurship development in e-waste management. The objective of this workshop is to create awareness among researchers, students and scientists, academicians and the common public about management of hazardous e-waste and also to facilitate interaction between industrialists, academicians and scientists and researchers.

ABOUT SERB

The Science and Engineering Research Board (SERB) is a statutory body established through an Act of Parliament. Supporting basic research in emerging areas of Science & Engineering is the primary and distinctive mandate of the Board. The Board structure, with both financial and administrative powers vested in the Board, would enable quicker decisions on research issues, greatly improving thereby our responsiveness to the genuine needs of the research, scientists, and S & T system.

ABOUT IPS ACADEMY INSTITUTE OF ENGINEERING & SCIENCE

IPS Academy, Institute of Engineering & Science is part of Indore professional Society running 16 colleges and 71 courses, is one of the premier Institutions in the Central India in the field of Science and Technology. It has a huge 58 acres lush green campus with modern facilities inside the campus. The Institute of Engineering & Science, IPS academy established in the year 1999 offers UG Program in EC, CE, CM, CSE, EX (All Five NBA Accredited), also offers UG Program in FT& SE and ME. Institute has PG programs in above seven disciplines. The Institute is located in Indore, which is the Industrial Capital of M.P.

ABOUT DEPARTMENT OF ECE

Department of Electronics and Communication was established in the year 1999. The Department has NBA accredited BE (EC) Program, also offers PG Degree Program in Electronics and Communication Engineering. Department is equipped with excellent infrastructure and state of the art equipment to explore the technological challenges in the areas of Electronics, Communication Engineering, VLSI Design, Signal Processing, RF Design, Computer Networking etc. The Department has qualified faculty and advanced laboratories.

ABOUT INDORE

Indore, the pride of Malwa is a premier center for education and technology. Presently Indore is having a wide range of Industries, technical Institutions, Center for Advanced Technology (RRCAT), Indo-German Tool Room, IT Park are some reputed center of excellence. Indore City is surrounded by many Industries like Larsen and Turbo, Eicher Motors, Crompton Greaves etc. Recently cricket semiconductor and Reliance data center are proposed to be established by an investment of Rs 6000/- Crore. Indore is the only educational hub in India to house technological premiers like IIT & IIM Indore simultaneously.
