

CIVILIPSA ORGANIZED SAKRIYA 2015 National Workshop
On
“Current Trends in Steel Construction”

“Current Trends in Steel Construction” is an ignited theme for Structural Engineering Students. It should be focused smartly because it plays a crucial role in the development of Nation and to mitigate the effect of natural hazards on Structures. Civilipsa’s two days workshop SAKRIYA 2015 for M. Tech. Students (Nov 20-21, 2015) is inaugurated. This is Second year of Sakriya. Around 50 students of various Institutes were present in the Workshop. Guests were Mr. Manoj Verma, and Mr. M.N Bagchi. Mr.Amit Sharma told that this two days national Workshop will provide attitude in the field of Structural Engineering which helps to cultivate the Nation. Expert Lectures delivered by Mr. Manoj Verma, Senior Manager Saturn Prefeb India Pvt. Ltd. Indore. He shares his wide field experience with students to elaborate the concept of PEB Structures. Mr. M.N Bagchi, DGM SAIL and Mr. Anurag Dubey, AGM SAIL, keep their views on “Advances of steel component”. Asso. Prof. R..B. Chaturvedi from Civil Engineering Dept. IES IPS Academy Indore delivered his lecture on “Design of connections in PEB Structures”.

Technical visit was also organized for the students by the department in association with SAIL to visit SAIL yard in Indore.
