

NBA New Delhi accredits five engineering courses at IPS Academy Institute of Engineering & Science

National Board of Accreditation (NBA) New Delhi has accredited five engineering courses at IPS Academy Institute of Engineering & Science, Indore. The institute is one of the very few colleges in the Madhya Pradesh to get accreditation of five courses under Outcome-Based Education (OBE).

Reaching this summit has enabled global recognition of IPS Academy Institute of Engineering & Science and allowed greater flexibility and increased mobility to the degrees offered, and to its graduates to opt for higher studies and acquire better jobs in member countries of the Washington Accord.

Giving details of accreditation President of IPS Academy, Ar Achal K Choudhary & Principal Dr Archana Keerti Chowdhary said five UG programs are accredited, namely, Civil Engineering, Computer Science & Engineering, Chemical Engineering, Electrical & Electronics Engineering and Electronics & Communication Engineering.

NBA expert team had visited the college in February 2017 and rigorously assessed the five departments. They have appreciated the infrastructure, management, faculty, student contributions and OBE practices adopted in the college. "OBE is the quality assurance mechanism adopted for engineering programmes by NBA when India became a signatory of the Washington Accord in June 2014."

In the year 2017, Institute will be entering the 18th year of its journey in pioneering and promoting quality engineering education and being accredited by NBA is a feather in the cap, and a matter of pride for the entire institution. The support of the benign management, academic guidance and mentoring of the eminent faculty, supported by non-teaching staff and hard work and dedication of the brilliant students have taken the institute to its present rightful place", said Principal.
