

Weather Station Launched in IES IPS Academy

CIVILIPSA is proud to announce the launch of portal www.ipsacademy.org/weather as display of Automatic Weather Station (AWS) installed in IPS Academy, Indore. The inauguration was marked on the occasion of celebration of Engineers Day by an inspirational talk from Er. Komal Prasad from IWWA, urging the budding engineers to do innovative engineering for the society worthy of awards like Bharat Ratna.

Explaining the details about the weather station Prof. Chintan Pathak told:

- AWS at IPSA, records seven quantities right now, namely: temperature, humidity, solar radiation, wind speed, wind direction, atmospheric pressure and rainfall.
- The weather data is also stored in a database and uploaded to other websites for aggregation with world weather data.
- The data is in public domain and can be used by anyone around the world.
- Mail to: hod.civil@ipsacademy.org for getting the data.

Principal Dr. Archana Keerti Chowdhary explained the thrust of data needed in R & D work. An expert lecture also delivered by Prof.J.K.Jain on structural engineering.
