NATIONAL WORKSHOP

on

“An Innovative Approach Towards Recent Trends and Advancements in Renewable Energy Sources & Technologies for Sustainable Environment”

4th to 8th September 2017

Sponsored by

Science and Engineering Research Board

(A Statutory Body under Dept. of Science & Technology, Govt. of India)

Organized by

Department of Chemical Engineering
(NBA Accredited)
Institute of Engineering & Science
IPS Academy, Indore (M.P.)

INTRODUCTION

The objective of the workshop is to bring out current and future development trends in the fields of energy efficiency and renewable energy sources & technologies. Renewable energy can be understood as energy that is collected from resources which are naturally replenished on a human timescale, such as sunlight, wind, rain, tides, waves, and geothermal energy. This workshop will provide opportunities to the academicians and students community to update their knowledge in the latest technologies. This workshop is disseminating relevant information on various aspects and current trends in renewable energy technologies. Attending this workshop will be of great benefit to the participants by familiarizing themselves with the state of the art in energy technologies and planning long-term research programme. This workshop will provide a platform to the academicians, scientists, industrialists & technologists to discuss & present their work on the related issues

ABOUT SERB

The Science and Engineering Research Board (SERB) is a statutory body established through an Act of Parliament. Supporting basic research in emerging areas of Science & Engineering are the primary and distinctive mandate of the Board. The Board structure, with both financial and administrative powers vested in the Board, would enable quicker decisions on research issues, greatly improving thereby our responsiveness to the genuine needs of the research, scientists and the S&T system.

ABOUT INSTITUTE OF ENGINEERING & SCIENCE, IPS ACADEMY

IPS Academy is one of the premier institute of Central India region, running more than 71 courses in the field of Science and Technology, Arts, Commerce, Basic Sciences, Pharmacy, Architecture, Fashion Designing, Management, Journalism, Library Science etc. It has a huge 58 acres lush green campus with all the facilities inside the campus area. The Institute of Engineering & Science, IPS Academy offers UG & PG programmes in Chemical Engg., Civil Engg., Computer Science Engg., Electrical & Electronics Engg., Electronics & Communication Engg., Fire Technology & Safety Engg., and Mechanical Engg. In Indore the Institute is situated on AB Road, National Highway No. 3 in Rajendra Nagar. Indore is industrial & financial capital of M.P. and is well connected by road, rail and airways and is a center of commercial activities as well as has tourist attraction. Tourist places like Ujjain, Omkareshwar, Mandu etc. are situated within 100 km of Indore.

ABOUT DEPARTMENT OF CHEMICAL ENGINEERING

Department of Chemical Engineering was established in the year 2004 with under graduate course to provide quality education to the students with perspective for practical implementation of the abstract, theoretical concepts & expanded with post graduation course with specialization in Computer Aided Chemical Process Design in 2011. The department has hosted number of Quality improvement programmes, Seminars / Conferences/ Workshops for faculties and students of various institutes. The department is NBA accredited. Our students are placed in many prestigious research centers and public sectors like BARC, IGCAR, IPR, IOCL, ONGC, BORL etc.

PARTICIPANTS

Research Scholars, Industrial researchers, & Academicians from different institutes, universities & research organization can attend the workshop.
