

CIVILIPSA organized NEEV 2018 **“National Level Student’s Paper Presentation”** **On “Opportunities & Challenges”**

To stimulate the spirit of inventiveness & managerial skills among students and to encourage innovative thoughts, creativity, exploration, technological and presentation skills, CIVILIPSA’S National Level Student’s Paper Presentation NEEV 2018 (9th -14th April 2018) is organized. This is 10th year of NEEV. Around 300 students of various institutes were present in the Neev. One of the proposals was on “smart villages” viz. converting a village into smart village by eliminating all its existing problems which weren’t even acknowledged by the head of panchayat. Many other interesting topics like waste disposal, river conservation and earthquake resistant buildings were presented.

Principal Dr. Archana Keerti Chowdhary said “as a building needs strong Neev for its foundation, similarly students must thrive to build strong Neev of knowledge on which future of country could be supported”.
