

STUDENTS AWARENESS PROGRAM ON CLEANLINESS TO PROMOTE SWACHH BHARAT MISSION.

IPS Academy, Institute of Engineering & Science, Indore.

Cleanliness is next to Godliness. We've heard this phrase many times. But do we follow this? A lot of people don't, even though we should. However, some of us don't even respect the people who clean the trash. "A clean India would be the best tribute India could pay to Mahatma Gandhi on his 150 birth anniversary in 2019," said Shri Narendra Modi as he launched the Swachh Bharat Mission at Rajpath in New Delhi. On 2nd October 2014, Swachh Bharat Mission was launched throughout length and breadth of the country as a national movement. The campaign aims to achieve the vision of a 'Clean India' by 2nd October 2019. Only in clean environment, resides sound health and positive thinking. If every one of us makes surrounding clean, we have clean

environment all over world. Cleanliness is the path to greener environment and better tomorrow. Keeping all these in mind, a students awareness program on cleanliness to promote Swachh Bharat Mission program was conducted by IPS Academy, Institute of Engineering & Science, Department of Mathematics, during 16/01/2020 to 31/01/2020. During this awareness program different activities like plantation of saplings, Poster making competition, Slogan writing competition, Speech competition, Making best out of waste competition, Lectures and presentations on waste recycling, energy conservation, forest conservation, water conservations etc. were organized. All the students, faculty members and teaching staff took part in this awareness program.

OBJECTIVE

To maintain campus clean and green.

To maintain an eco - friendly ecosystem in and around the campus of the college.

To participate actively in community programs for the restoration of our environment using 3R's Reduce, Reuse and Recycle.

To create a healthy atmosphere for making students and staff free from diseases.

OUTCOMES

Developed a habit in students and staff to maintain the campus clean and green.

Developed an eco – friendly ecosystem in and around the campus of the college.

Promoted the recycling of solid and liquid waste generated in the campus.

Reduced students and staff absences due to diseases.
