DEPARTMENT OF HUMANITIES
Lab Utility Report (2019-20)
Language Lab

The department of humanities has a well equipped language lab with 60 systems. The 'Wordsworth Software' is used to help teachers improve student's communication in all the four skills: Listening, Speaking, Reading and Writing. The software includes ample exercises, activities and tasks on the core linguistics components. A number of activities are also available for practicing Grammar, vocabulary development and pronunciation. The priority is to give learners audio visual input on the respective topics in their syllabus.

The department follows the activity based teaching methodology. The learners get involved in different individual/pair/group activities such as JAM, Impromptu Speech, Essay Writing, Running Commentary, Group Discussion, Debate, Poster Presentation etc. All the first Year B.Tech students as well as the second year onwards students benefitted from the English laboratory during the academic year and enhanced their capabilities by using the software.

Conducting practical sessions using Language Lab for regular teaching as well as training for the students through various activities like

- Role play
- Reflection practices through mirror
- Extempore
- Quizzes
- Cross word Puzzle
- Group Discussion
- Personal Interview etc.
